DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Van Derveer [US 2151628]. Van Derveer (fig. 1-4) discloses structure as claimed including a vehicle seat with a cover 19, a resilient rod with hooks 13/14 at each end and a turnbuckle 15. The edge of the cover is rolled over the body of the rod and open at the hook ends which is equivalent to the pocket formed along the perimeter edge of applicant's invention. The turnbuckle connects the ends of the rod and serves to tighten the cover on the seat. The turnbuckle engages a screw eye 24/25 at each of its ends.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
